

VETERAN & MBE
C-10 Lic.# 987407

VETERAN ELECTRICAL POWER SYSTEMS

1223 S. Flower St., Burbank, CA 91502

ELECTRICAL PREVENTIVE MAINTENANCE

- Maintenance & Inspection
- Troubleshooting and Field Services
- Refurbishments of Breakers
- Retrofits
- Predictive Diagnostics

ELECTRICAL ENGINEERING SERVICES

- Power Quality Studies
- Relay Design and Integration
- Single Line Diagram Development
- Short Circuit
- Coordination Studies
- Arc Flash Solutions

REPAIR SERVICES

- Transformers
- Contactors
- Obsolete Replacement Parts
- Circuit Breakers
- Switchboards
- Switchboard Modifications

ELECTRICAL TESTING

- Acceptance Test and Commissioning
- Ground Fault Certification
- Ground Resistance Testing
- Harmonic Measurements
- Hi-potential Tests of HV Cables
- Hi-potential Tests of HV Switchgear
- Infrared & Ultrasonic Detection
- Insulation Resistance Test
- Low, Medium, & High Voltage Circuit Breaker Tests
- Inrush Power Monitoring
- Power Quality Analyzing
- Protective Relay Tests and Calibration
- Rotating AC/DC Motors Tests
- Transfer Switch Testing
- Transformer Oil Analysis
- Transformer Tests Medium & High Voltage
- Voltage/ Load Recording
- Variable Speed Drives Testing
